

Poem

Improving Lives

Improving lives are easy
Just put it to the test
Think of other people
And just do your best

I know of a special person
Who changed the world today
With his many inventions,
And insightful scientific ideas

Albert Einstein is his name
He took a bold step up the lane
Physics, Mathematics and the speed of light
Was easy for Albert Einstein at the time

SO LET US IMPROVE OTHER PEOPLE'S
LIVES by Following Albert Einstein
And here is a little advise
Dream, achieve, believe!
